STATE CAPITAL.

THE WORK OF THE SESSION PROGRESSING.

THE SENATE COMMITTEES.

Senator Yeater Highly Honored—Mr. Prigmore at Work—The Separate Coach Law Introduced.

Special to the Democrat.

JEFFERSON CITY, Mo., Jan. 13.—After the routine business in the house to-day a number of bills were introduced.

One of these measures provides for separate cars for colored people, similar to the laws now in force in several of the southern states.

Mr. Prigmore introduced a bill relating to landlords and tenants affecting attachments for rent; also bill relating to damages and contributions in action for tort, deferring such as may suit for damages in case of accident by negligence of railroad and other employees.

The house then adjourned until to-morrow.

The Senate.

A resolution was introduced to appoint a committee to examine into convict labor problem and fix rate of wages.

The senate then went into the executive session and confirmed several appointments made by Governor Francis.

Senate Committees.

Lieutenant-Governor O'Meara today handed down his list of committees with the following chairmanships:

Judiciary—Stone.

Criminal Jurisprudence—Banks. Internal Improvements—Stevens. Miscellaneous Corporations—Henderson.

Insurance—Love.

Ways and Means—Espenched. Appropriations—Cochran. School Text Books—Yeater.

Education—Hines.

Constitutional Amendments—Dockey.

Banks—Newberry.

Agriculture—Taggart.

Cities, Towns and Villages—Lyman.

Privileges and Elections—Bledsoe.

Justices of the Peace—Dunn.

Militia—Sebree.

Retrenchment and Reform—McClinic.

Enrolled Bills—Bradley. Engrossed Bills—Colley.

Printing—Walker.

Roads and Highways—Weeks.

Accounts—Rouner.

Penitentiary—Starke.

Federal Relations—Morrissey.

Labor and Mines—Gash.

Fleemosynary Institutions—Baskett.

Township Organization—Dunn.

Senator Yeater is also placed on the judiciary committee and the committee on criminal jurisprudence. This shows that one senator has already made a reputation for ability as a lawyer.

The Appointments.

As to the appointments, I don't believe there is a man in the town who knows anything about who his appointees will be. Every reporter on the ground and nearly every friend of the candidates or applicants have taken their turn talking to his excellency and all report the same pleasant reception and courteous treatment, at the hands of the governor, but not one has been found who will admit that he had received any sort of a "tip," "pointer" or intimation as to who he is going to appoint to any of the places at his disposal. As stated yesterday, the office of mine inspector is vacant now, the term of the present warden will expire on the 15th and that of penitentiary physician at the same time, and the impression here now is that he will appoint successors to each of these gentlemen next Monday, but who they are to be will probably not be known till read out in the senate. One peculiar feature about this contest is that every one of Governor Francis' appointees, with the exception of Ellerbe, insurance commissioner, is an applicant for appointment at the hands of Governor Stone. Mr. Ellerbe is not asking for anything but his deputy, Mr. Van Wormer, wants to be insur-

ance commissioner and is working very hard to get it. The unanimity with which these gentlemen come up and ask for another chance at the public crib leads outsiders to believe that they regard "public office a private snap" and they want some more of the "snap." But unless all signs fail these same gentlemen or a majority of them will be chasing the "mighty dollar" in some other pursuit early in 1893, and some of the friends of Governor Stone who "burnt the brush" and "shelled the woods" will be drawing the salaries that Gov. Francis' appointees are now drawing with so much regularity and punctuality.

There has been no time since the war that there was such a persistent fight made on a democratic nominee as was made on Gov. Stone, and no one knows better than Gov. Stone who his friends were and are, and that he will reward them there is little or no reason for doubt. There is no precedent for him to do otherwise, and it is not probable that he will make one.

The Governor's Hours.

Although Gov. Stone has only been in office a few days, he has established business rules, or office hours, as follows: He receives visitors and callers from 9 a.m. to 12 m., then goes to lunch, and from 2 to 5 p.m. devotes his time to his correspondence in his private office, and only parties on business of the utmost importance can get to see him till his correspondence is disposed of.

The Waiters.

As indicated in the letter yesterday, the big crowd has left, leaving only the members of the two houses and the army of place hunters on the ground. Each day that rolls by without the announcement of the committees in the house and senate or without some appointment from the governor adds to their anxiety until in some of the cases the suspense is telling on the "waiters."

The Committees.

To-day will bring glad tidings to some and sadness to others, as Governor O'Meara has indicated that he will announce his committees during the day. With Speaker Mabrey it is different; he may get his ready by Saturday morning but there is a possibility that he may hold them over till Monday morning and hand them down then.

BLAINE WORSE.

The End Believed to be Very Near at Hand.

WASHINGTON, Jan. 13.—The friends of Hon. James G. Blaine now believe that the end is near at hand. The latest from the bedside is the statement of Dr. Johnson to the effect that Mr. Blaine is worse.

CONVICTIONS EXPECTED.

The Homestead Poisoning Cases in Court.

PITTSBURG, Pa., Jan. 13.—The criminal court room was crowded this morning when the trial of the labor leader Dempsey, charged with poisoning non-union workmen, was called.

Dr. Campbell testified to the discovery that the victims had been poisoned. It is thought Dempsey will be convicted.

Twenty Injured.

BOONE, Iowa, Jan. 13.—A passenger train on the Northwestern was wrecked near here by a snow plow to-day and twenty persons were injured. Nobody killed.

End of Joint Agency.

The joint agency between the M. K. & T. and the Missouri Pacific Railway end to-morrow and the two offices will be checked off Sunday. The clerical force of the new M. K. & T. depot under Agent John W. Connor is slated as follows: Car clerk, Omar D. Thornton; check clerk, H. W. Ludwick; bill clerk, O. C. Gatlin; rate clerk, F. S. Ludwick; cashier, L. M. Shields. The night check clerk has not been named. All the gentlemen are from the Missouri Pacific freight house except Mr. Shields, who comes from Nevada.

Will Probated.

The will of Henry Boyer, deceased, has been admitted to probate in the office of Judge Hoy. The executor has not been appointed.

Out of Jail.

Chas. Mathews, after serving thirty days in jail for stealing a set ring from the residence of Mint Johns, was released to-day.

Fine, Juicy Oysters.

Fresh oysters, the first of the season, served in all styles at Sicker's cafe. Also for sale by the can.

HOTEL IN FLAMES.

DULUTH'S OLDEST HOSTELRY BURNED.

AN AWFUL HOLOCAUST.

Many Guests Suffocated and Others Rescued in Their Night Clothes—Intensely Cold.

DULUTH, Minn., Jan. 13.—At 1 o'clock this morning the St. Louis hotel, the oldest hostelry in the city, was found to be in flames and the fire alarm was sounded at once. The department responded promptly, but it soon became evident that no human power could stop the flames, and the brave firemen directed their attention to the work of saving the guests who were in the burning building.

So rapid was the progress of the flames that many of the guests had not been awakened before all avenues of escape were cut off and many are thought to have perished.

Scores were rescued in their night clothes and they suffered terribly before they could be taken to a place of shelter. The thermometer was away below zero and the firemen themselves suffered greatly.

A BAD RECORD.

Abe Emerson Strikes Bettie Lacy In the Eye With a Chunk of Coal.

A small war occurred at the dive of "Black Em," north of the gas works, about 9 o'clock last night, in which a negro woman got her head so badly knocked out of shape that is a wonder she is not dead.

For several months there has been bad blood between Abe Emerson and a woman named Bettie Lacy, the latter, however, being on the defensive. She claims that Emerson has threatened her life on several occasions and last night seemed determined to make good his threats. During an altercation between them, Emerson hurled a large piece of coal at the woman and struck her on the right eye, producing a frightful swelling and discoloration from which she may lose her eye.

Officers were summoned and Chief DeLong, Constable Gossage and Officers Smith and Scally went to the house and arrested Emerson. He will be tried this afternoon before Justice Fisher on the charge of assault with intent to kill. He is known as a desperate negro, having killed a man in Kansas and served a term in the penitentiary.

G. A. R. Installation.

Gen. George R. Smith Post, No. 53, G. A. R. and the Women's Relief Corps had an installation of officers last night for the year. The following officers were installed: Post commander, T. P. Berry; senior vice, W. B. Challacombe; junior vice, John Rippey; surgeon, Dr. Trader; officer of the day, Dr. T. Bronson; adjutant, H. W. Nichols; quartermaster, J. A. Capen; officer of the guard, John Kehn.

After the installation an enjoyable supper was served and the old veterans of the canteen and the bivouac fire spent a most pleasant evening. A musical and literary programme was given. The performers were excellent in their several parts and were loudly applauded.

HUGHES-LUSK.

A Popular Sedalian to Marry One of Parsons' Fairest Daughters—A Pleasant Surprise.

Cards are out announcing the marriage of Mr. Roland B. Hughes and Miss Stella Lusk at Parsons, Kans., on Thursday, January 26th, 1893, at 12 o'clock. The ceremony will occur in the Presbyterian church in that city.

The announcement will be received with no small amount of surprise by all, as the groom has long

been known as one who quoted the Portuguese proverb, "Advise all your friends to get married, but remain single yourself."

Roland B. Hughes is the son of County Treasurer Hughes, and is one of the most popular gentlemen that ever lived in Sedalia. He counts his friends by the hundreds and, if good wishes can make life happy, the days of the future will ever lie under bright skies and hold a perpetual joy for Roland Hughes and his fair bride. Mr. Hughes holds a lucrative and responsible position in the general offices of the M. K. & T. railway at Parsons.

Miss Lusk is one of Parsons' most cultured and charming young ladies and the groom is to be congratulated upon securing so lovable a woman for his bride. Miss Lusk is the sister of Editor Lusk, of the Parsons Sun.

The DEMOCRAT wishes the best things in life to come to the young couple.

It is time for the Sedalia democratic club to be revived.

SEDALIA will entertain two state conventions next week, both of them important but non-political.

THAT north and south railroad is by no means abandoned. It is needed and it will be built next year.

THERE is a bill before the general assembly, with strong backing, creating the office of state bank examiner.

DURING the four years of Harrison's administration the federal government expended \$120,926,132.6 more than its receipts. A pretty expensive luxury wasn't it?

It is not at all likely that the democrats can secure the Kansas senatorship except at a price that honorable men cannot afford to pay. Kansas is not a democratic state and will not be for some years to come.

THE democrats in the Kansas legislature should be guided solely by justice and right in the course they take, and in the end such course will prove to be the best policy. The masses of neither party will endorse revolutionary methods.

BOSS CROKER refuses to affirm or deny that he and Senator Hill are at odds. Very well; let them settle the matter themselves and let the democracy pass on to the repeal of the protective tariff laws and the restoration of silver to its place in our monetary system.

DURING the cholera epidemic in Hamburg there were deaths at the rate of one in every thirty inhabitants. Such a record should impress upon Americans the duty of doing everything that science suggests to get rid of the conditions that invite the terrible scourge.

An exchange says that Governor Stone has five hundred unread letters on hand from the friends of candidates for official position. All of which goes to show that a great many people waste a great deal of time in attempting to tell somebody else what is best to do, when that somebody else is already fully informed on the subject.

THERE are two important requisites to Sedalia's growth and improvement that should never be lost sight of. One is the building of good rock roads that will give every neighborhood in the county easy communication with the city at all seasons of the year and in all kinds of weather. The other is the encouragement of manufacturing enterprises that will give employment to labor and convert cheap raw material into valuable merchantable products.

in the university perform the duties actually required of a state geologist; sixth, cut down the amount expended for public printing; seventh, abolish the fee system of paying coal oil inspectors, give them salaries and let the fees go to the state; eighth, reduce the appropriation for the labor commissioner. The *Commercial* thinks these reforms will save the people of the state nearly one million dollars per year.NOVA SCOTIA coal, says the *St. Louis Chronicle*, mined by higher priced labor than is employed in the Pennsylvania mines, transported a longer distance and paying a duty of 75 cents per ton, has been sold recently in New York for less than Pennsylvania coal. This has limited the power of the Reading ghouls to distress the shivering poor and squeeze out more dollars per ton, and so they are at work on a deal for the control of the Nova Scotia coal fields.

THE governor of Kansas has recognized the populist house as the legal organization—the governor is a populist himself. The supreme court will likely recognize the republican organization as legal—the supreme court is republican. So the democrats will be called upon to decide which is right, and they can be depended upon to do so. In the meantime Kansas is not in a position to make faces at any southern state or to talk about "lawlessness" above a whisper.

ATTORNEY GENERAL MILLER says he will retire from office \$15,000 poorer than when he went in. Whose fault is it? When Miller was appointed, says the Springfield *Leader*, he was a second rate lawyer and it is very doubtful if he made \$5,000 a year at hard work. He got a good, easy but responsible position in the cabinet at \$8,000 per year and there was no reason why he should live beyond his means to the tune of \$15,000 to make people believe he is otherwise than he actually is. Now that he is nearly out does he believe that people in a year hence will waste their time in discussing his personal habits while in Washington? There is too much splendor already at the national capital to suit the ideas of the people of this country.THOSE who either rejoice or regret that we live in a fast age, says the *Moerly Democrat*, will do well to study the faces of Christopher Columbus as they appear on the historical postage stamps of the latest edition. When he first sees the land of the western continent he is absolutely beardless and looks with sparkling eyes and beaming youthful face upon the new world. Just twelve hours later as he sets foot upon the fair land his face is covered with a flowing beard much like unto that of Col. C. H. Jones, of the *St. Louis Republic*. Experiences of sorrow and intense grief have been known to change the color of one's hair in a short time, but this is the fastest time on record for the growth of a complete and full-fledged set of magnificent wind-defying whiskers.THE Chicago *Tribune*, though a republican paper, is convinced that the pension laws need amendment, the pension rolls to be purified and a general reform in the pension business. The *Tribune*, in a recent issue, says: "Even if the democrats do not want an extra session because they are in no hurry to remodel the tariff, it may be that they will find an extra session forced on them to provide the money with which to meet the demands of pensioners, great numbers of whom having rendered the government real service are not entitled to any favors at its hands. There is no more important question awaiting Mr. Cleveland than this one of separating the sheep from the goats—the men whom the republic should pension from those whom the law administration of a prodigal law has placed on the rolls."THE Rocheport *Commercial* has discovered a way out of the difficulty that was anticipated in the effort to limit the state's expenditures to the estimated revenue. Here is the *Commercial's* proportion: Raise the price of convict labor; second, more rigidly examine the bills for criminal costs from the various counties; third, raise the licenses paid by bankers, peddlers, auctioneers and saloon keepers; fourth, cut down the appropriations for the state militia; fifth, abolish the office of state geologist and make the professor of geology

ing as many families. Its intention was to forward the practical interests of the household," but from this wide field it had selected two points of attack. It aimed to reduce the cost of living by furnishing goods of the best quality and at reasonable prices, and to provide good house service by means of a training school and a free intelligence office. This Vienna Housekeepers' Union I afterward found to be well known in Europe as a model of its kind. The one in Berlin failed to make its co-operative store a success, and with a greatly reduced membership now confines its attention now for the most part to the running of a cooking school. All other housekeepers' clubs of which I was able to learn, no matter what the extent of success, existed mainly for business purposes. Consultation as to housekeeping methods formed no part of their work. The reason the German housewife does not study housekeeping is that she keeps house very much as her mother did, and those methods she learned before she was married.

The highly developed civilization of the older countries makes a certain mode of life the only practical one for a given class. A thousand little conventions have planned and bounded your life before you come into it. In Germany even the palate seems to have yielded to centuries of training; certain tastes go with certain means. This makes such a degree of public cooking practicable as relieves the household from all baking and from the preparation of all food that can be cold, or indeed hot within certain limits. It greatly reduces the labor done in the house and renders a not too exacting routine possible. In these older countries the art of living when considered with regard to the means at disposal is a far more perfect thing than with us. Take the German housewife having an income of \$1500 or \$2000; an income that in one of the smaller German cities would put her family among the well-to-do-classes. Her house would be similar in arrangement to that of her friends and the mode of life familiar to her from childhood would fit into it like the parts of a puzzle. Having been trained in all domestic arts she needs only a little executive ability, and this quality is always at hand, plainly inherited along with her old mahogany and linen, to direct her competent servants and to achieve such results in her housekeeping as will be highly satisfactory to her family and friends. Whatever new problems are to meet the younger generation of European housekeepers, the life of the past and present has not been difficult, once granted the money necessary for a certain style of living. If a housekeepers' club can help her to buy her sugar and tea a little cheaper per pound it is all she wants of it.

DISASTROUS FIRE.

The Jaccard Jewelry Company of Kansas City Burned Out—Heavy Loss.

KANSAS CITY, Mo., Jan. 13.—A disastrous conflagration broke out in the Smart building on the west side of Walnut street a few minutes after midnight last night, and at 1:30 this morning nothing remained of the handsome five story granite front building but the walls, inside of which was a chaos of embers sending up a volcano of sparks against the black sky. The beautiful store of the Jaccard jewelry company, 1012-1014 Walnut street, and the workshops and other departments occupying the entire first, second and fourth floors; the Kansas City Art school, also known as the Western Art league, occupying the fifth floor, and the Foster woolen company, occupying the third floor, were destroyed completely. It was one of the quietest, fiercest, hottest and most disastrous fires with which the fire department ever had to grapple.

The certain loss on the Smart building and its contents is not less than \$200,000. It may reach an additional \$100,000, or even more. The insurance on the certain loss is \$13,400. The loss on the Hewson building adjoining will reach fully \$20,000.

What makes the loss uncertain is the ability of the Jaccard safes and vaults to withstand the intense heat to which they were subjected. The same building was on fire December 21, last. Then the water which was deluged upon the rear of the jewelry store penetrated some of the safety receptacles and did damage. How they fared in such a molten cauldron as that of last night is a question.

The building was a veritable fiery furnace. The flames were bursting through the rear when discovered. Twelve minutes later they were bursting through the roof in the rear portion of the building and swept upward hundreds of feet, lighting the entire city. Another ten minutes and they leaped through the roof at the front. The heat was intense. The water pressure was poor, and streams directed against the flames were pitifully weak and ineffective. It seems that no vault could withstand the ordeal.

Should the safe of the Jaccard company prove a wreck the loss will be greater by tens of thousands of dollars. The safe was an immense structure built especially for the company and weighs thirteen tons. It was stored with costly gems and jewelry.

Chief Hale gives it as his opinion that the fire was of incendiary origin.

ONE MORE CABINET TIP.

Congressman Oates Says Morgan of Alabama Will Be Secretary of State.

WASHINGTON, Jan. 13.—Morgan of Alabama will be secretary of state, is the latest information. It comes from Congressman Oates, who was sent by Mr. Cleveland last week to give him the benefit of his knowledge of Southern men. President-elect Cleveland told Mr. Oates he had not selected any one to fill the other places in the cabinet. Mr. Cleveland proceeded to question Mr. Oates about Colonel Morrison, J. Randolph, Blount, Culberson, "Holke" Smith, Herbert and others who have been mentioned in connection with the cabinet. He expressed a wish to have a tariff bill passed which should give the manufacturers free raw material and a tariff on manufactured products.

On silver Mr. Cleveland spoke very freely against the continued purchase of the white metal by the government which would soon be a source of great danger to the financial prosperity of the country. As to the extra session question Mr. Cleveland is still of the opinion that a called session early in the fall, probably during September, will be as much as the exigencies will demand. However, the condition of the treasury seems to make an earlier session necessary, he will hold himself in readiness to take whatever steps may be necessary.

DISAPPEARED WITH HIS CHILD.

Clayton Puterbaugh of Fort Scott Has Mysteriously Left the City.

For SCOTT, Kan., Jan. 13.—Clayton Puterbaugh a young married man of wide acquaintance, and his little 6-year-old son, Benji, mysteriously disappeared from their home in this city yesterday, and every effort to locate them has proved futile. He left home with the child yesterday morning about 8 o'clock, telling his wife they were going up town to transact some business, he having just drawn a neat check for his month's salary from the Kansas City, Fort Scott and Memphis road, in whose employ he has been for some time. He has not been seen since by anyone who knows him.

His wife and two young daughters are overcome with grief and anxiety. Mrs. Puterbaugh is a lady of wealthy parentage at Baxter Springs, and says there was not the least domestic infelicity existing in the family, and is utterly ignorant as to any reason why she should voluntarily leave home with their only boy. He has always been fond of his family and not given to dissipation.

Increasing cloudiness and snow. Warmer.**A Trotting Decision.**

The American Trotting association has rendered the following decision that will be of interest to local horsemen:

637—E. C. Gibson, Houstonia, Mo., vs. Thomas Lafon, Columbia, Mo., and the chestnut horse Charles Reade. Protested fourth money in 2:37 class, at Kansas City, Mo., October 3, 1892, \$25. The evidence shows that the chestnut horse Charles Reade was not eligible to compete in the above class.

Ordered, that the protest be sustained and the money redistributed under the rules.

Racing from Vienna to Berlin.

A Vienna correspondent telegraphs to a London, England, exchange and says that preparations are being made among the trotting clubs in Austria for a race with one horse and two horse vehicles between Vienna and Berlin. The special object of the contest will be to test the qualities of various breeds of horses, notably American and Russian. Thirty money prizes will be given. The first prize will be \$3,800, and several honorary prizes will be distributed by clubs. Emporer Francis Joseph will give a special prize. The driving will be done in the day time only. The race will take place next May.

Sure Death to Germs.

"No living germ of disease can resist the antiseptic power of essence of cinnamon for a more than a few hours," is the conclusion announced by M. Chamberland as the result of prolonged research and experiment in M. Pasteur's laboratory. It is said to destroy microbes as effectually, if not as rapidly, as corrosive sublimate. Even the scent of it is fatal to microbes, and M. Chamberland says a decoction of cinnamon should be taken freely by persons living in places affected by typhoid or cholera.

In Honor of Miss Cronk.

A pleasant party of young people assembled at the home of Mr. and Mrs. J. Boone Dodge, on East Thirteenth street, last evening to attend a progressive euchre party given in honor of Miss Rosa Cronk, a most charming young lady of St. Louis. The evening was pleasantly spent with cards, after which refreshments were served. Those present were: Misses Morey, Lizzie Kennedy, Julia Ingram, and Messrs. Walter Morey, Frank Hubbard, Charley Ingram, John Ewart and Will Ford. The lady's prize was won by Miss Cronk and the gentlemen's prize by Walter Morey. John Ewart succeeded in getting the "booby" prize.

K. of P. Installation.

Sedalia Lodge No. 27, K. of P., will install its officers to-night for the present year as follows:

C. F. Ernst, M. W.; E. C. Manson, C. C.; F. L. Ludeman, V. C.; W. Higginbotham, M. F.; W. S. Bosselman, M. E.; R. D. Thatcher, K. of R. and S.; O. M. Brooks, P.; J. C. McArthur, M. A.; E. E. Dice, I. G.; H. Nichols, O. G.; W. W. Hodgins, trustee.

Hospital Meeting.

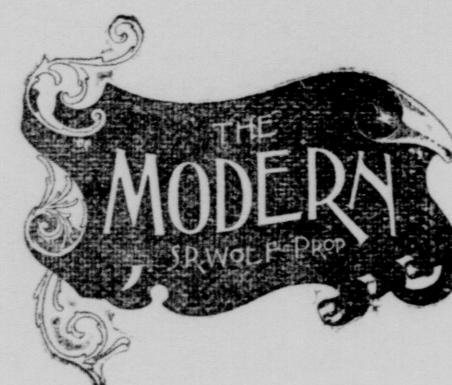

There will be a special meeting of the ladies of the Hospital Association held at the Commercial club rooms to-morrow afternoon at 2:30. A full attendance is desired, as business of importance will come before the meeting.

No Damage.

A defective flue called both companies to Fifth and Marvin about 7:15 o'clock last evening. No damage was done. The house was occupied by H. S. Tenant.

Funeral of Mrs. O'Brien.

The funeral of Mrs. Harriet O'Brien will take place to-morrow at 10 o'clock at St. Vincent de Paul church.

Master Car builder Sam Irvin is turning out a great many cars at present. They are taking all the cars into the shops and giving them a thorough overhauling and equipping them with Gould couplers and air brakes.

More New Engines.

The increase of mileage on the M., K. & T. railroad has caused a corresponding increase in the volume of business handled by the company, and the road finds itself taxed to its utmost capacity to furnish motive power sufficient to move the traffic. Wm. O'Hearn, superintendent of motive power and machinery, has just had completed the plans and specifications for five new passenger engines of the most improved pattern. They will be larger than the engines now in use on the road, having 20x24 inch cyclinders and weighing 145,000.

These engines with the new compound engine now en route to this city, the company will be as well equipped in motive power as any road in the west. The various locomotive works in the country have been notified that bids would be received for the construction of the new engines, and within a few weeks active work will be commenced upon the building of the locomotives.—Parsons Sav.

Chloroform in Winter.

Watchfulness against cholera should not be relaxed simply because winter is with us, says the Boston Transcript. While it is true that hot weather is more favor-

able to the spread of the pestilence than cold, the popular impression that the cholera is prevented or killed is not correct. In 1832 cholera made its first appearance in London suburbs on the 13th of February, and in Dublin three weeks later. The first death from cholera in North America that year occurred in Quebec on the 8th of June. Municipal authorities and householders should work together this winter to the end that sanitation shall be in the best possible shape to prevent or resist an outbreak in the spring. The importance of this precaution is accentuated by the reappearance of cholera in Hamburg within the last week to the astonishment of all Germany, which had been officially informed that the disease had been stamped out.
